INNOVATIVE SOLUTIONS / MISSION-FOCUSED RESULTS

Empowering Government and Commercial Organizations
to Work Smarter, Securely, and at Scale

Small, Minority-Owned, Disadvantaged Business

WHO WE ARE

1RZT LLC combines the strengths of ZealRiver Technologies and Reva Solutions to deliver end-to-end technology solutions that modernize operations, strengthen security, and drive measurable outcomes.

Our experts bring deep domain knowledge, proven frameworks, and leading technologies to solve complex mission and business challenges.

CORE CAPABILITIES

ENTERPRISE IT & CYBERSECURITY SOLUTIONS

- Systems Engineering & Integration
- Cybersecurity Engineering & Operations
- Cloud Solutions & Infrastructure Management
- Network & Systems Administration
- Data, Voice, and Collaboration Solutions
- Program Management & Lifecycle Support

MODERN BUSINESS AUTOMATION

- Enterprise Content Management (ECM)
- Intelligent Capture & Document Processing
- Business Process Automation & Workflow
- Robotic Process Automation (RPA)
- Application Modernization
- Cloud, Hybrid & On-Premise Solutions

ADVISORY & PROFESSIONAL SERVICES

- Program Management & PMO Support
- Acquisition & Logistics Management
- Financial Management & Audit Support
- Risk Management & Policy Development
- Training, Change Management & Workforce Development
- Subject Matter Experts (SMEs)

OUR CUSTOMERS

Air Force Global Strike Command Education advisory and test administration services (Barksdale AFB).

Air Force Business Systems (CIE & DCAPES)

Enterprise services supporting enterprise IT, configuration management, and mission-critical systems (Gunter AFB).

Naval Surface Warfare Center Dahlgren Division (U.S. Navy)

Cybersecurity, SharePoint development, financial analysis, systems engineering and administration support.

CONTRACT VEHICLES

OUR MISSION

To deliver innovative, secure, and scalable technology solutions that empower our customers to achieve mission and business outcomes with confidence.

AGILE | INNOVATIVE | TRUSTED | MISSION-FOCUSED | CUSTOMER-CENTERED

SEWP OVERVIEW

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support - more than 50,000 orders a year.

FAIR OPPORTUNITY

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding \$10,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP Quote Request Tool (QRT) will automatically include the Contract Holders within a selected Group or based on a suggested source.

About 1RZT, LLC.

1RZT LLC is a joint venture formed under the SBA Mentor-Protégé Program, pairing ZealRiver Technologies certified small-business delivery with Reva Solutions' systems-integration depth in content services, automation, and application modernization — one contract holder, two decades of combined federal and enterprise experience. Our mission is to deliver innovative, secure, and scalable technology solutions that empower our customers to achieve mission and business outcomes with confidence 1RZT is an 8(a), woman owned small business. Our capabilities include infrastructure & Cloud Engineering, Cybersecurity & Network Operations, AI Enablement & Intelligent Automation, Enterprise Content & Case Management, Cloud-Native & SaaS Delivery, and Program Management & Education Advisory services. Visit our website: <https://www.1RZT.com>.

WHAT'S IN SCOPE FOR SEWP VI?

SEWP is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC / AV) solutions and services. Technology is ever-evolving and for that reason SEWP's processes enable our Contract Holders to add new commercial technology and IT services to their contract daily, as requested by our customers. The focus of SEWP is on the full suite of technology offerings that simplify Governmental access and Industry offerings across the entire ITC/AV solutions and services landscape. SEWP is composed of three (3) scope categories detailed below. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and will quickly review and provide feedback. The SEWP Contracts were awarded by scope category; the three categories are:

ORDERING PROCESS

- 1. Define the requirement and prepare the purchase request.** Each agency establishes its own internal ordering procedures and forms for purchase requests (PRs) and delivery orders (DOs) issued under a SEWP contract; these are not defined by the NASA SEWP Program Management Office (PMO). Typically, the end user identifies the requirement and prepares a PR.
- 2. Submit the request and issue the delivery order.** The PR and required funding information are submitted to the agency's procurement office, which then issues the DO. Any valid federal agency DO form and associated delivery order number may be used. The NASA SEWP PMO does not issue DOs; it reviews, processes, and tracks issued orders before forwarding them to the appropriate contract holder or holders.
- 3. Follow agency-specific requirements.** Agencies may impose additional IT ordering requirements. Contracting officers (COs/KOs) must follow applicable policies for contract vehicles and government-wide acquisition contracts. SEWP requires intermediary procurement offices only when agency policy does.
- 4. Route modifications through SEWP.** Any modification to an issued order must also be routed through the NASA SEWP PMO for review and processing.
